### Request description

Any video (including film, VHS, and/or electronic media) of particulate control devices. Videos / films were mentioned in training materials for U.S. EPA Air Pollution Training Institute (APTI) Courses: • APTI-400: Introduction to Hazardous Air Pollutants; • APTI-413 / PLAN360: Control of Particulate Matter Emissions; • APTI-445: Inspection of Particle Control Devices; and • SI-437 / BASC105: Air Pollution Control Technology Series. These videos are maintained by the EPA Office of Air Quality Planning and Standards (OAQPS) at its Research Triangle Park campus. I am a contracted instructor for APTI course by multi-jurisdictional organizations (MJO), the Institute of Tribal Environmental Professionals (ITEP), and the U.S. Department of Energy (DOE). I would like to obtain copies of videos for particulate control devices for use in teaching future APTI courses to EPA; other local, state, and tribal air agency; and other federal agency personnel. Thank you for your assistance.

Expedited processing

Expedited Processing	yes
Explanation	I will be teaching APTI-413/Plan360 for the Lake Michigan Air Directors Consortium (LADCO) to its member air agencies in early August. I need to include the requested videos in my training, before I can successfully teach the course.
